SUMMARY

I am an active, dedicated individual with a strong combination of technical and leadership skills. With experience in organizations as a secretary of Karang Taruna and technology certification from Dicoding.com, I am able to manage projects, lead teams, and solve problems with a creative and structured approach.

The certifications I have include programming skills (C, Dart, JavaScript), cloud computing (AWS), data visualization, and modern software development principles (SOLID). In addition, teaching experience and being active in various extracurricular activities make me flexible, communicative, and able to work with various teams.

I am ready to contribute as a manager, intern, or scholarship recipient, with a high spirit to continue learning and making a positive impact in every role I take on.
